Sunsafe Guidelines

Guidelines
The college will adopt best practice guidelines to promote safety for students. These guidelines provide a holistic structure for addressing the education of the school community and for providing key strategies during times when students are exposed.

Procedure – Communication to staff
1. The college will provide term-based reminders to staff regarding sun safety.
2. The college will encourage staff to model best practice behaviour including the wearing of hats outside, appropriate clothing, and the use of sunscreen.

Procedure – Communication to students & the school community
1. The college will communicate to students the importance of sun safety via classroom posters and reminders in school assembly.
2. The college will promote sun safety via posters in student common areas and/or classrooms.

Procedure – Playground & Outdoor Activities
1. Students wishing to play on the playground or outdoors must make use of a hat.
2. Students are strongly encouraged to use their own sunscreen.
3. Teachers are to manage the risk of sun safety in planning for outdoor activities and/or excursions.
